Saidislom Saidazimov

Frontend Developer

+998 (95) 067 08 35 | saidazimovsaidislom97@gmail.com | Tashkent, Uzbekistan

Summary

Proficient Frontend Developer with an Associate's Degree in Frontend Software Engineering, bringing technical expertise in HTML, CSS, and JavaScript to create dynamic web applications. Successfully collaborated with designers and backend developers to deliver cohesive and user-friendly interfaces, resulting in improved overall project efficiency. Demonstrated commitment to enhancing team capabilities through knowledge-sharing initiatives. Looking to leverage my innovative approach to contribute to impactful web solutions.

Experience

Frontend Developer

- Developed responsive web applications using HTML, CSS, and JavaScript across multiple devices.
- Collaborated with UX/UI designers, increasing user satisfaction by 20%.
- Optimized performance through refactoring and asset management, reducing load times by 30%.
- Used Git for version control and team collaboration.
- Integrated REST APIs with backend developers.
- Built dynamic SPAs using React, Vue.js, and Next.js.
- Conducted internal training on modern frontend practices.
